

Program

September 09th, 2026

10:00 - 12:15

Réunion du club Français de l'hypophyse. Défis diagnostiques et thérapeutiques en pathologie hypophysaire. En collaboration avec la société Tunisienne d'Endocrinologie, diabète et Métabolisme ("in French")

Auditorium

Chairperson(s) : Thierry BRUE, Gérald RAVEROT, Philippe CHANSON, Nabila REKIB-MEJDOUB

10:00

Que faire en cas de premier dépistage négatif à la recherche d'une cause génétique de tumeur hypophysaire agressive ou précoce ?

Pauline ROMANET, Marseille

10:30

Que faire au-delà du témozolomide en cas de tumeur hypophysaire agressive ?

Gérald RAVEROT, Lyon

11:00

Maladie de Cushing à image incertaine : faut-il opérer ?

Bertrand BAUSSART, Paris

11:30

Table ronde : trois défis cliniques en pathologie hypophysaire

Chairperson(s) : Philippe CHANSON, Nabila REKIB-MEJDOUB

11:30

Adénome thyréotrope géant : quand la collaboration endocrinologie-Neurochirurgie fait la différence

Fatma MNIF, Sfax, TUNISIA

11:45

Métamorphose phénotypique d'un Incidentalome hypophysaire non sécrétant en macroprolactinome géant et paradoxe radiobiologique : une double singularité évolutive

Khouloud BOUJELBEN, Sfax, TUNISIA

12:00

Maladie de Cushing et « kissing carotids » : un défi neurochirurgical face à une variante anatomique à haut risque

Ibticem BEN NACEF, Tunis, TUNISIA

13:15 - 14:00

Plenary 1 - Rolf Gaillard Prize Lecture

Auditorium

Chairperson(s) : Davide CARVALHO, Marta KORBONITS, Albert BECKERS

13:15

Towards precision medicine in acromegaly: now and beyond

Manel PUIG DOMINGO, , SPAIN

14:00 - 15:15

Symposium 1

GLP-1 Agonists: the Fall of Obesity?

Auditorium

Chairperson(s) : Harriet SCHELLEKENS, Uberto PAGOTTO

14:00

Preclinical developments

Daniela LISKIEWICZ, , GERMANY

14:25

Non-obesity effects of GLP-1 agonists (smoking and alcohol abuse)

Mette Kruse KLAUSEN, , DENMARK

14:50

Efficacy and side effects of GLP-1 agonists

Uberto PAGOTTO, , ITALY

15:15 - 15:45

Coffee Break

15:45 - 17:00

Symposium 2

Acromegaly and comorbidities

Auditorium

Chairperson(s) : Giovanna MANTOVANI, Jakob DAL

15:45
Fat and muscle fibrosis in acromegaly
Jens-Otto JORGENSEN, , DENMARK

16:10
Acromegaly and bone
Sabrina CHILOIRO, , ITALY

16:35
GH, IGF-I and cancer
Cesar BOGUSZEWSKI, , BRAZIL

17:00 - 18:00

ENEA STUDIES

Auditorium

Chairperson(s) : Davide CARVALHO, Krystallenia ALEXANDRAKI

17:00
Study on Resistant Prolactinoma
Kristallenia ALEXANDRAKI, , GREECE

17:04
Parasellar Lesions ENEA European Post Graduate Course
Josanne VASSALLO, , MALTA

17:08
Neuroendocrinology of Reproduction Study Group -Case studies presentation
Paraskevi XEKOUKI, , GREECE

17:12
ENEA European Postgraduate Course Neuroendocrinology of Reproduction
Josanne VASSALLO, , MALTA

17:16
GH Study Group
Alfonso SOTO, , SPAIN

17:20
ACTH Study Group
Mario DETOMAS, , GERMANY

17:24
TSH Study Group
Federico GATTO, , ITALY

17:28
Posterior Pituitary Study Group
Cihan ATILA, , SWITZERLAND

17:30
Plurihormonal Pathology Study Group

Antonio FUENTES-FAYOS, , SPAIN

17:34

Aggressive Pituitary Tumors and Pituitary Carcinomas Study Group

Mirela-Diana ILIE

18:00 - 18:30

ENEA General Assembly

Auditorium

18:30 - 19:30

Welcome Cocktail

20:00 - 21:00

EYRC Meet & Drink

September 10th, 2026

08:30 - 09:15

Meet-the-Expert 1

Auditorium

08:30

What's new in pituitary apoplexy

Betina BIAGETTI, , SPAIN

Meet-the-Expert 3

Room 106

08:30

Spatial transcriptomics and single cell analysis

Antonio FUENTES FAYOS, , SPAIN

Meet-the-Expert 2

Room 108

08:30

Genetics of acromegaly and pituitary gigantism

Pedro M. MARQUES, , PORTUGAL

09:15 - 09:45

Plenary Lecture 2

Auditorium

Chairperson(s) : Marta KORBONITS

09:15

Olfactory food signals in the regulation of satiety and whole body metabolism

Sophie STECULORUM, , GERMANY

09:45 - 11:00

Coffee Break & EYRC Poster Tour

11:00 - 12:15

Symposium 3

Neuroendocrine Disruptors at the Crossroads: Circadian Rhythms, Microbiota and Environmental interfaces

Auditorium

Chairperson(s) : Jérôme BERTHERAT, Sakina MHAOUTY-KODJA

11:00

From chronobiology to chronotherapy

Andrea ISIDORI, , ITALY

11:25

Effects of exposure to endocrine disrupting chemicals on hypothalamus regulation of reproduction and appetite

Anne-Simone PARENT, , BELGIUM

11:50

Microbioma of the mother and development of hypothalamic circuits controlling appetite in the fetus

Sébastien BOURET

12:15 - 13:15

Lunch Break

13:15 - 14:00

Meet-the-Expert 4

Auditorium

13:15

Molecular imaging for pituitary and adrenal tumors

Friederike VÖLTER, , GERMANY

Meet-the-Expert 6

Room 106

13:15

Browning and thermogenesis of adipose tissue

Saverio CINTI, , ITALY

Meet-the-Expert 5

Room 108

13:15

Hypogonadotropic hypogonadism

Luigi MAIONE

14:00 - 15:15

Symposium 4

Central Control of Obesity

Auditorium

Chairperson(s) : Riccarda GRANATA, Clara ALVAREZ

14:00

POMC neurons: Not only satiety

Daniela COTA

14:25

Ghrelin, LEAP2 and food reward

Maximilian TUFVESSON-ALM, , IRELAND

14:50

Sympathetic Perineurial Cells: A New Interface for Energy Balance

Gitalee SARKER, , UNITED KINGDOM

15:15 - 16:15

Coffee Break & EYRC Poster

16:15 - 17:15

EYRC Oral Communications

Auditorium

Chairperson(s) : Sabrina CHILOIRO, Cihan ATILA

16:15 **OP-001**

Effects of a novel set of somatostatin/cortistatin analogues on pituitary neuroendocrine tumors

Federica MANGILI, Milan, ITALY

16:25 **OP-002**

Integrating genomics, hormone measurements and functional validation in idiopathic hypogonadotropic hypogonadism: insights from a Maltese cohort

Clayton John AXIAK, Msida, MALTA

16:35 **OP-003**

Pituitary Developmental Single-cell Mapping Identifies Markers of Heterogeneous High-risk USP8-wildtype Macroadenomas in Cushing's Disease

Qilin ZHANG, Shanghai, CHINA

16:45 **OP-004**

Senescence-associated secretory phenotype characterises aggressive non-functioning pituitary neuroendocrine tumours and is active in SOX2+ tumour stem cell compartments

James KAUFMAN-COOK, London, UNITED KINGDOM

16:55 **OP-005**

MYC inhibition emerges as a potential therapy for fgSRL resistant patients in acromegaly

Paula DE PEDRO-CAMPOS, Badalona, SPAIN

17:05 **OP-006**

Beyond Cortisol: Steroid Metabolomics after an Overnight 1-mg Dexamethasone Test for the Differential Diagnosis of Hypercortisolism

Mario DETOMAS, Würzburg, GERMANY

17:15 - 18:30

Symposium 5

Young Endocrinologists Symposium (EYRC)

Auditorium

Chairperson(s) : Mirela Diana ILIE, Giampaolo TRIVELIN

17:15

Transcriptomics of pituitary tumors: molecular classification and clinical implications

Fabio BIOLETTO, , ITALY

17:40

Advancing Pituitary Tumor Classifications Through Epigenomic Insights

Matthias DOTTERMUSCH, , GERMANY

18:05

Hyponatremia and the Brain

Julia BECK, , SWITZERLAND

September 11th, 2026

08:30 - 09:15

Meet-the-Expert 7

Auditorium

08:30

Pituitary incidentalomas

Niki KARAVITAKI, , UNITED KINGDOM

Meet-the-Expert 8

Room 106

08:30

Microglia and microbiota-gut-brain interaction

Lily KEANE, , IRELAND

Meet-the-Expert 9

Room 108

08:30

TSH-secreting adenomas

Andrea LANIA, , ITALY

09:15 - 10:15

The Year in Neuroendocrinology

Auditorium

Chairperson(s) : Riccarda GRANATA, Martin REINCKE

09:15

Basic

Raul LUQUE, , SPAIN

09:45

Clinical

Nienke BIERMASZ, , NETHERLANDS

10:15 - 11:15

Coffee Break & Poster Session 1

11:15 - 11:45

Plenary Lecture 3

Auditorium

Chairperson(s) : Castano JUSTO, Alexandraki KRYSTALLENIA

11:15

Integrating morpho-molecular landscapes to achieve a clinical classification of lung neuroendocrine tumours

Lynnette FERNANDEZ-CUESTA

11:45 - 13:00

Symposium 6

Neuroendocrine Tumors: From Molecular Landscapes and New Models to Current Clinical Advances

Auditorium

Chairperson(s) : Justo CASTANO, Krystallenia ALEXANDRAKI

11:45

Defining the Cellular Landscape of Multifocal Small Intestine Neuroendocrine Tumors

Netta MÄKINEN, , UNITED STATES

12:10

Patient derived organoid models help to unveil translational discoveries in neuroendocrine neoplasms: the case of EGF

Talya DAYTON, , SPAIN

12:35

Current advances in the treatment of NETs: from targeted therapies to theranostic successes

Simona GLASBERG, , ISRAEL

13:00 - 14:00

Lunch Break

14:00 - 14:45

Meet-the-Expert 10

Auditorium

14:00

Differential diagnosis of Cushing / pseudo-Cushing

Frederic CASTINETTI

Meet-the-Expert 12

Room 106

14:00

Will steroidomics and AI replace dynamic testing in endocrine tumor diagnosis?

Georgiana CONSTANTINESCU, , GERMANY

Meet-the-Expert 11

Room 108

14:00

AVP disorders

Julie REFARDT, , NETHERLANDS

14:45 - 16:00

Symposium 7

Craniopharyngiomas

Auditorium

Chairperson(s) : Katharina SCHILBACH, Chiara VILLA

14:45

Novel Mechanistic Insights in Craniopharyngiomas

Juan PEDRO MARTINÉZ BARBERA, , UNITED KINGDOM

15:10

Modern neuroradiological evaluation of craniopharyngiomas

Ruth PRIETO, , SPAIN

15:35

Surgical or medical treatment?

Emmanuel JOUANNEAU

16:00 - 16:30

Coffee Break & Poster Session 2

16:30 - 17:30

Oral Communications 2 GH

Room 106

Chairperson(s) : Peter WOLF, Nicoleta OLARESCU

16:30 **OP-013**

A targeted proteomic approach reveals plasma biomarkers of active

acromegaly

Nicoleta Cristina OLARESCU, Oslo, NORWAY

16:40 **OP-014**

Pituitary gigantism is not only a younger form of growth hormone excess but also more aggressive phenotype with increased mortality: a comparison of 290 patients with pituitary gigantism and 2954 patients with acromegaly

Sonia KANIUKA-JAKUBOWSKA, Gdańsk, POLAND

16:50 **OP-015**

Evidencing the safety and efficacy of pegvisomant for children and adolescents with acromegaly: a multicentre retrospective observational study

Kevin A. HUYNH, Cambridge, UNITED KINGDOM

17:00 **OP-016**

Proteomic Analysis of GH-secreting and Non Functioning Pituitary Adenomas

Francesco FERRAÙ, Messina, ITALY, Giordana SIRACUSANO, Messina, ITALY

17:10 **OP-017**

Lifelong congenital untreated isolated GH deficiency does not alter human telomere length

Júnia R.O.L. SCHWEIZER, Munich, GERMANY

17:20 **OP-018**

Leptin in the regulation of neuroendocrine and immune-metabolic response to energy deprivation in health and disease

Konstantinos STEFANAKIS, Boston, UNITED STATES

Oral Communications 1 ACTH

Room 108

Chairperson(s) : Antoine TABARIN, Marily THEODOROPOULOU

16:30 **OP-007**

'Block and replace' atumelnant (CRN04894) and physiologic hydrocortisone replacement rapidly controls hypercortisolism in ACTH-dependent Cushing syndrome

Alessandra CASAGRANDE

16:40 **OP-008**

Circulating MicroRNA Signature in Inferior petrosal Sinus Sampling to Differentiate Patients with ACTH-Dependent Hypercortisolism.

Zhanna BELAYA, Moscow, RUSSIAN FEDERATION

16:50 **OP-009**

Comparative Transcriptome Analysis of ACTH Secreting Pituitary Neuroendocrine Tumors (PitNET) According to USP8 Variant Status

Zhanna BELAYA, Moscow, RUSSIAN FEDERATION

17:00 **OP-010**

Investigation of the safety, tolerability, pharmacokinetics, and efficacy of the novel anti-ACTH antibody asedebart in adults with Cushing's disease: a Phase II, open-label, dose-titration trial

Heike BENECKE, Valby, DENMARK

17:10 **OP-011**

Modeling and investigating SOX3 deletions associated with X-linked hypopituitarism using human iPSC-derived pituitary organoids

Giampaolo TRIVELLIN, Pieve Emanuele, ITALY

17:20 **OP-012**

Loss of nuclear menin in non-MEN1 prolactinomas and sex differences: evidence from murine models and human tumors.

Graciela DIAZ-TORGA, Buenos Aires, ARGENTINA

17:30 - 18:45

Symposium 8

Prolactinomas Across the Lifespan: Diagnosis, Management and Outcomes

Auditorium

Chairperson(s) : Dominique MAITER, Marta ARAUJO CASTRO

17:30

Specificities in the management of prolactinoma in children and adolescents

Joanne BLAIR, , UNITED KINGDOM

17:55

Should we change treatment paradigm in young women?

Iris Cm PELSMA, , NETHERLANDS

18:20

The different facets of prolactinoma in older patients

Stefan M CONSTANTINESCU, , BELGIUM

September 12th, 2026

09:30 - 10:00

Plenary Lecture 4

Auditorium

Chairperson(s) : Martin REINCKE

09:30

Pituitary Surgery 2.0: How to approach invasive tumors

Lior GONEN, , ISRAEL

10:00 - 10:30

Controversy - Is OGTT suppression test still useful in the diagnosis/follow-up of acromegaly?

Auditorium

Chairperson(s) : Alberto PEREIRA

10:00

Yes

Daniela ESPOSITO, , SWEDEN

10:15

No

Peter KAMENICKY

10:30 - 11:00

Coffee Break

11:00 - 12:15

Symposium 9

Cushing's Syndrome: New Players on The Block

Auditorium

Chairperson(s) : Pina KARDIOGLU, Frédéric CASTINETTI

11:00

Corticotroph Tumor development

Luis PEREZ-RIVAS, , GERMANY

11:25

Molecular Imaging in corticotroph tumors

Linus HABERBOSCH, , GERMANY

11:50

Medical treatment of Cushing's syndrome: New concepts, new drugs

Rosario PIVONELLO, , ITALY

12:15 - 12:30

Closing Ceremony

Auditorium
